

As Congress looks for solutions to our economic problems...

The anti-worker card check legislation isn't the answer.

At a time of economic uncertainty, Congress should not enact measures that threaten our economic competitiveness, including the mis-named Employee Free Choice Act. This “card check” legislation poses not only an assault on an individual’s right to privacy, but a direct threat to economic growth and job creation and would have a particularly devastating impact on small employers who are the primary source for new jobs in our economy.

Protect jobs and the secret ballot. Oppose the Employee Free Choice Act. It’s no choice for workers.
